

## Engineering Solution

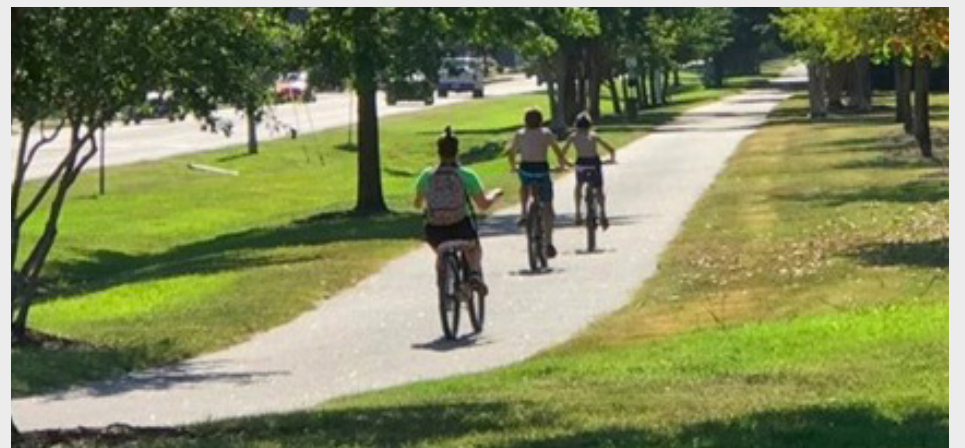

*Redesigning streets and roads to be  
safe for all roadway users*

### Intersection improvements (e.g., dedicated turn lanes)

*Image source: Kimley-Horn*

### Pedestrian & bicyclist improvements (e.g., shared-use paths)

*Image source: City of Virginia Beach*

### Rural road improvements (e.g., curve signage)

*Image source: AdobeStock*

### Projects to reduce vehicle speeds (e.g., speed tables)

*Image source: NACTO*

## Education Solutions

*Teaching community members about the importance of safe road user behaviors*

Education on the dangers of impaired (distracted, drunk, drugged, and drowsy) driving, walking, and bicycling

# Enforcement Solutions

## *Reinforcing safe road user behaviors*

### Enforcement on speeding

*Image source: WWBT*

### Enforcement on running red lights

*Image source: Arlington County*

### Enforcement on impaired (distracted, drunk, drugged, and drowsy) driving, walking, and bicycling

**WHAT'S THE DAMAGE?**  
Drinking and driving costs *MORE* than your drinks.
